REVOLUTION LEADER DEAD!

On September 30th at 11:45pm, a human corpse was seen falling from the top of a building and splatting onto the ground. The corpse was found missing a head and had varieties of broken bones, scars, bullet holes and bruises littered around the body. Investigators attempted to identify the victim for multiple days and found no records on them. Fortunately one of the detectives that was researching into the Revolutionary Group, known as Any Other Weapon or AOW, was able to identify the corpse to belong to the group's leader and founder.

Recently CCTV footage of what happened was found, The Revolutionary was found at the top of a roof with another Revolutionist known as Heart. They appeared to be conversing amongst each other as an unknown person came up the stairwell with a shotgun. The unknown person kicked down the door and seemingly threatened them both. The Revolutionary goes to fight the unknown figure as Heart escapes from the rooftop. The unknown person and The Revolutionary grapple and get punches off at each other. The unknown person breaks the Revolutionary's leg before pushing them to the edge of the building and shooting them in the head. The corpse falls backwards and off the building. Ultimately hitting a parked car and landing on the side of the street.

This might have an incidental effect on the population of District 16 and destroy the hierarchy that makes up the revolution. Detective Jackson Lee, head of the AOW case has left a statement that says: "If you have any information about any of these parties involved, please come to [Station] 501 or call the TIP phone line and we would be happy to take your statement. Any and all info helps us stop unnecessary violence on our streets at home."
